

Ferrari California 'Dreamin' by Wheelsandmore

08/07/2011 22:28 by admin

We don't know if this was what the Mamas and the Papas were talking about when they released their hit, California Dreaming, but this latest tuning package from Wheelsandmore would definitely warm us up on a Winter's day. Apparently, the German tuner thought they could do better than Ferrari by tweaking this California's engine, along with its exterior look, to come up with their California 'Dreamin' package. The 'Dreamin' package starts off with a new removable, valve controlled exhaust system and an update to the ecu software of the 4,300 cc V8 Direct Injection engine. These changes boost power to 500 hp and 525 lb-ft of torque, up from the standard 460 hp and 357 lb/ft of torque. Other technical additions include an optional combination of 200 cell sports catalysts and premuffler replacement tubes, handcrafted by Wheelsandmore.[...]
