

RUF CTR 3

20/07/2011 00:15 by admin

Porsche tuning firm extraordinaire, RUF, is one of the best in the business at what it does. So much so, that they produce some of the fastest and most powerful Porsche upgrades on the planet. The latest model of their Cayman-based CTR 3 is a perfect example of that. Already boasting two previous models, the CTR 3 is the epitome of how a Porsche Cayman should be tuned up. On its own, the German sports car is already capable of producing an output of 265 horsepower, thanks to a 2.9-liter inline-six engine, but RUF have put their talents to good use to give the Cayman the proper juicing up. This was done by completely redesigning the car's look and replacing the existing engine with a more powerful 3.8-liter flat-six cylinder engine with a staggering output of 750 horsepower.[...]
