The aftermarket specialists at RENNtech have turned their attention to the Mercedes SLS AMG supercar once again, after in late 2010 they offered a tuning program aimed at unleashing the beast hiding underneath the refined exterior.

But in the automotive world there is always room for more, and RENNtech seems to take things seriously when it comes to that.

Their latest offering for the Mercedes-Benz SLS AMG has just been introduced, offering the V8 powerplant under the supercar's hood some [...]
