

The New Discovery by Project Kahn

21/07/2011 15:30 by admin

The aftermarket specialists at Kahn Design are being kept busy these days alright, with the latest creation from the British tuners represented by what they call new discovery. The package only addresses the vehicle's visual appearance, leaving the performance tweaks aside.

The new discovery's, extended contour is immediately recognisable with an enhancement styling package consisting of front and rear arch spats, front and rear bumper unit, twin mesh grille, side vents, L.E.D running lights [...]
