

Land Rover Discovery by Project Kahn

21/07/2011 18:31 by admin

There has been a pretty busy period at the Project Kahn design center. Only this months we have seen lots of updates packages for model from Audi, Land Rover or Porsche. Today is time for another Land Rover model: the Discovery. For the exterior updates the tuner is offering an impressive styling package consisting of front and rear arch spats, front and rear bumper unit, twin mesh grille, side vents, L.E.D running lights, lowered sports and exhaust system and privacy glass. The final touch has been given by a new set of wheels, size 22" with simple clean lines, soft organic surfaces on the edges of the spoke and a purposeful mechanical center.[...]
