

## MINI R53 ProjectOne by CoverEFX

29/07/2011 13:19 by admin

The aftermarket world is like an endless gold mine, offering something for everybody, from light tweaks like adding new wheels to completely changing everything about a car. And the German tuners somehow always manage to find the right combination, regardless of the model they choose to improve.

The latest such project that caught our attention comes from CoverEFX, who have once again focused on the MINI brand.

Despite the fact that the Brits have launched a new generation of the Cooper S ... [...]
