

2011 Corvette Z06 HPE1000 Takes the Dyno Test [Video]

11/08/2011 18:39 by admin

The tuners at Hennessey Performance Engineering (HPE) simply enjoy take American cars and squeeze even the last drop of juice out of them, so their latest project does nothing but reinforcing that idea. Specifically HPE turned their attention to the 2011 Chevrolet Corvette Z06, which they tweaked to offer insane performance.

They even took it to take the dyno test, a video of which can be watched (and heard) below this article.

But before you rush to do that, let us tell what makes the Z0 [...]
