

## Mercedes-Benz CLS Black Bison by Wald International

11/08/2011 19:39 by admin

Japanese tuner, Wald International, is taking one idea and turning it into about 20 with its ongoing Black Bison tuning packages. We've seen this package added to all kinds of vehicles, from the Lexus LX570 to the BMW 5-Series F10 and back to the Lexus LS600h. It's a regular dark-as-night themed soiree at Wald International and the next vehicle to be invited is the new generation Mercedes CLS-Class. As the name of the package suggests, the Mercedes CLS Black Bison is all about the black, inside and out. Aside from that, the CLS also gets upgraded with LED daytime running lights, sport front fenders, side skirts, a rear bumper with LED brake lights, new exhaust tips, and new trunk and roof spoilers. The package sits on a special set of wheels painted in black with a design specially created for the new CLS.[...]
