The tuners at Wheelsaandmore seem to be on top of their game today, releasing one enhancement kit after another. The latest to join the pack is the so-called SLR 707 Edition, as it is affectionately nicknamed by the guys behind it. And there is a reason for that designation too.

Specifically, it comes from the standard 707 horsepower and 915 Nm of torque the supercar now develops thanks to a larger compressor and an ECU upgrade.

We'll remind you that in standard form, the SLR develops 62...[...]
