

Techart to Premiere 2011 Porsche Cayenne Aerodynamic Kit I in Frankfurt

25/08/2011 17:10 by admin

The German SUV is growing in popularity among tuners, with the latest upgrade package coming from the aftermarket specialists at Techart, who will premiere it at the Frankfurt Auto Show next month.

Dubbed Aerodynamic Kit I, the program consists of sporty elements like a three piece front spoiler with integrated air ducts which help cool the brake system, custom side skirts, a roof spoiler and a modified rear apron which incorporates the diffuser and two reflectors on the sides of the tailgate....
