

2011 IAA: Techart's Fresh Take on the New Porsche Cayenne

25/08/2011 18:11 by admin

Next month's 2011 Frankfurt Motor Show in Germany will stage the world premiere of Techart's second batch of styling and performance modifications for the new generation of the Cayenne. Following the introduction of the excessive Cayenne Magnum in Geneva earlier this year, the renowned Porsche tuning firm has developed a more subtle design suite named Aerodynamic Kit I as well as new performance kit for the Turbo version called TA 058/T2.[...]
