

Burnouts in a Tuned Volkswagen Touareg W12 [video]

28/08/2011 15:40 by admin

The tuning world remains a fascinating chapter of the automotive industry, although the firms involved sometimes do nothing more than a horrible job that simply outrages fans from all over the world. We've heard a lot of people claiming that Volkswagen's Touareg W12 is already a breathtaking model, so developing an aftermarket kit just for this product would be a waste of time, resources and imagination.

But the folks over at Total Race have a different opinion and recently launched a customi... [...]
