

Custom Ford Mustang Released by Design-World

05/09/2011 16:57 by admin

We love it when two nations come together to give us an interesting driving proposal and this is exactly what we have here: a pony car that was reborn and has recently learned to speak German!

To be more precise the 2011 Ford Mustang GT has been targeted by German aftermarket developer Design-World, which has created a complete modification package in order to completely transform the car.

The tuning trip, which uses the CFC-Sundern Mustang Project designation, started under the hood, wher... [...]
