

Ford Mustang by Design-World

05/09/2011 18:58 by admin

When it comes about tuning updates, Ford Mustang is one of the most appreciated cars among tuners. And Design-World is a tuner that great an amazing job with modeling the car and updating its engine performance. The price for the kit is 12.150 or about \$17,300. Starting with the exterior the tuner is offering grinding parts for the channel bar, diffuser, radiator and bumper and a foil finish with contrasting color nuances in metallic black, metallic orange, white and carbon foil. The tuner is also offering a new set of wheels, size 20" and wrapped in 255/35ZR20 tires on the front axle, and of 10x20 inches with 285/30ZR20 tires on the back axle.[...]
