

Superchips Remaps the Audi A1 1.4 TFSI Sport

06/09/2011 18:07 by admin

The latest upgrade program coming from the aftermarket specialists at Superchips is an ECU remap for the Audi A1 1.4 TFSI Sport, which boosts the power already available under the hood by 26 bhp and 28 Nm of torque. This means it is now developing 146 bhp as compared to the standard version.

Thoroughly tested in both real world driving conditions and on Superchips' own in-house chassis dynamometer, the Audi A1 1.4 TFSI Sport ECU remap produces impressive gains. Power is boosted by a maximum [...]
