

Bentley Continental GT by Mansory

14/09/2011 20:40 by admin

Major auto shows like Frankfurt don't come by without the participation of renowned tuning firm, Mansory. This year's no different as the German tuning company has rolled out plenty of programs for some of the most expensive exotics on the market. One of Mansory's offerings for Frankfurt is for the Bentley Continental GT and it comes with plenty of aerodynamic and performance upgrades. Speaking about the former, Mansory dressed up the Continental GT with a plethora of items made from lightweight autoclave carbon, including a new front and rear apron that's been integrated with a new side skirt set. There's also a spoiler lip, a redesigned engine hood and front fenders, and a new set of 22" alloy wheels. Interior improvements are also available as part of the package with customers getting free reign to design it according to their preference. In addition to the aforementioned aerodynamic modifications, the Continental GT also gets an impressive power boost courtesy of a reprogrammed engine management system, a sports air filter, and a new sports exhaust system. All these additions took the Continental's 6.0-liter bi-turbo W12 engine output from the standard 567 horsepower and 516 lb/ft of torque all the way up to 672 horsepower and 575 lb/ft of torque.[...]
