

## Brabus High Performance 4WD Full Electric E-Class Shocks

14/09/2011 22:41 by admin

This isn't the first time when Brabus plays with electrons, but we are facing with the first plug-dependent creation of the German tuner that is serious about performance.

How serious? 429 hp and 2,360 lb-ft of torque serious. Yes, we know the numbers are impressive. They arrive thanks to the use of four Protean wheel hub electric motors. We have to add that this layout also means that we receive four-wheel-drive. In case you were wondering where all the negative particle rush comes from, [...]
