The tuning world has amazing ways, ways that have made a 1000 hp car seem normal. Well, guess what? another 1000 whp (wheel horsepower) project comes our way now. This time, the output obsessed guys over at Underground Racing have been playing with an Audi R8 V10.

The German supercar's 5.2-liter V10 engine has received twin turbochargers (and a chromed engine bay) in order to deliver the aforementioned muscle.

In order to make sure that everybody understands what such a car can do, Undergr... [...]
