

Japanese Tuner Sheds Some LEDs on the Lamborghini Diablo [Video]

16/09/2011 20:00 by admin

If you found the LED adorned Ferrari 458 Italia to be an overkill, wait until you check out this gem created from a Japanese audio and light systems specialist called Diecock ? no seriously, that is the company's name. Make the jump below and see what you should never do to a Lamborghini Diablo.[...]
