

2012 Mercedes-Benz CLS500 "Edition Black" by Kicherer

23/09/2011 02:04 by admin

German tuner, Kicherer, has prepared a new performance package based on the latest generation Mercedes CLS500. The package includes matte foil, consistent performance increase, exclusive wheel/tire combinations, and the intense use of high-quality carbon-fiber elements. The new package is called "Edition Black" and as its name suggests, it is covered with a matte-black foil that transforms the Mercedes into an exclusive one-of-a-kind car. It sits on a new set of 20" RS-1 forged wheels developed in house and combined with a sportive chassis adjustment. The black theme flows into the interior with a specifically developed, black-finish interior set.[...]
