

TechArt Porsche 911 Turbo Packs 700 HP

23/09/2011 17:11 by admin

We were so focused on the new Porsche 911, and the upcoming Turbo version that's still about a year away from being released that we forgot that the current version still has a lot to offer.

Introducing the power kit from German tuner TechArt, which has managed to boost the 3.8-liter boxer engine to a massive 700 horsepower.

To put the extra 200 horsepower into perspective, that's about as much kick as the new Lamborghini Aventador has, and should be enough to scare hypercars from 10 years... [...]
