

Mercedes GL V12 Engine Swap by MKB

26/09/2011 12:09 by admin

Not too long ago, a Daimler source confirmed for autoevolution that a factory V12-powered version of the Mercedes G-Klasse is coming for the 2012 revamp, thus bringing all the rumors about the arrival of a G65AMG to real life.

Now, are back with some more news that places Mercedes SUVs and V12 powerplants in the same sentence, but this time the info targets the aftermarket world. Tuning specialist MKB has recently announced that it is offering a V12 engine swap package for the Mercedes GL.[...]
