

Porsche Cayman S Duke Dynamics Presented

13/10/2011 19:18 by admin

The Porsche Cayman may be preparing to make room for a new generation, but the car still has a lot of potential, with the latest example that demonstrates this coming from Canada, where aftermarket specialist Duke Dynamics is offering a visual modification package for the coupe.

The mid-engined Porsche gets a bodykit that uses a balanced approach, consisting of a new front bumper with a honeycomb grille (this is 40 percent lighter than the stock one), a redesigned rear bumper that is just as ... [...]
