

Senner Tuning Releases Rear-Apron and Tailpipe Set for Audi A1 S-Line

17/10/2011 18:11 by admin

Following the launch of a full performance and styling package for the Audi A1, Germany's Senner Tuning is now offering a standalone set for the premium supermini fitted with the factory S-Line kit. The tuner's package comprises of a new rear apron made out of glass-fiber-reinforced polymeric material FGPC and new 90-mm tailpipes on either side instead of the twin outlets on the left side of the bumper.[...]
