

Delta 4x4 VW Amarok Beast Off-Road Kit Introduced

19/10/2011 00:27 by admin

We have to admit that if we combine the memories from our VW Amarok test drive, with the ideas that come to mind when we look at the aforementioned images, the perspective becomes pretty sweet.

What are we talking about? Off-road tuning company Delta 4x4 is giving us a modification package for the VW pickup. Dubbed The Beast, the kit raises the car by 4 inches, offering it a 36 degree slope driving angle.

The Amarok can be fitted with custom rims that have sized ranging from 18- to 20-inch...[...]
