

## Honda Civic Si Tjin Edition

21/10/2011 01:45 by admin

It seems that this year's SEMA Show kept Tjin Edition pretty busy. Next to a special Mustang GT 5.0, the tuner will also be displaying in Las Vegas a special Honda Civic SI developed in cooperation with Honda North America. According to the tuner his Civic SI has been developed with form, function and family in mind. The first thing you will notice about the car is a special Wraptivo wrap done by the guys at Daley Visual. Apparently this wrap was the last roll in existence making the Civic SI even more impressive. Next to it there will also be an set of 19" Rotiform Concave BLQ wheels. The Civic's center of gravity is brought down via Function and Form fully adjustable coilovers, and tucked away behind the concave wheels are a set of Baer brakes.[...]
