

Dodge Durango Heat by Toyo Tires

23/10/2011 02:04 by admin

Toyo Tires will be bringing a whole fleet of vehicles to the SEMA Auto Show, featuring four customized machines that will be part of the headline act at the world's biggest aftermarket auto event. As part of their Ultimate Ride Sweepstakes, Toyo Tires will be bringing a tricked out 2011 Dodge Durango that will not only be in attendance, but will also be given away to a lucky winner. The SEMA-bound Durango will be a Mineral Gray Metallic Heat Edition 4x4 that comes with plenty of tuning set-ups, including a new T-REX four-piece flat black mesh grille with a UFC logo on it. The Durango will also have a Magnaflow exhaust system, a custom Alpine Audio entertainment system courtesy of Mega Motorsports, a black leather upholstery with contrasting blue stitching from Roadwire, and a new set of 22" Savini Forged SV28c wheels wrapped around a set of Toyo Proxes ST II tires. Performance modifications are still being kept under wraps. Nevertheless, this Durango will still carry a powerful 3.6-liter Pentastar V6 engine that produces 295 horsepower and 260 lb/ft of torque. Either way, you're getting something that's well worth your time.[...]
