

Audi R8 GT Rides on Nutek Concave Wheels

25/10/2011 23:33 by admin

The Audi R8 is already an exclusive vehicle, but when talking about its lighter, more powerful GT version, things climb up to the sky.

We are talking about massive carbon fiber use and driving dynamics that can upset your biological watch. However, one owner in the US decided that he must add a personal touch to his R8 GT.

Thus, he turned to Nutek Forged Wheels for a new set of rims. His ride was gifted with a set of Series 708 Concave rims, which come in a 20x11-inch size for the rear [...]
