

Jeep Wrangler Powered Soft-Top Coming to SEMA [Video]

26/10/2011 19:42 by admin

If you want your ride to be as rugged as they come, but don't want to put up with the hustle of having to manually take the top off your Jeep Wrangler, we have something for you.

Here's a powered soft-top that can be flipped open at the press of a button conveniently located on your windscreen pillar.

The so called Power Kit will fit all Wranglers built between the 2007 to 2012 model years. It consists of sailcloth vinyl top, power top frame, hydraulics, wiring harness and installation [...]
