

Lexus IS 350C by VIP Auto Salon

26/10/2011 19:42 by admin

In its standard version, the Lexus IS 350C is powered by a 3.5-liter V6 that delivers 306 HP, but at the 2011 SEMA Auto Show, VIP Auto Salon is going to show what the convertible is truly capable. Their new tuning package for the IS 350C will push out an additional 80 HP, as well as look exceptional good doing it. The kit starts off right where we like it: the engine. VIP Auto Salon installed a power enterprise Rotex Supercharger kit by Apexi x VIP Auto Salon and a PTS Joe Z Series header back exhaust system to get a total output of 386 HP. The performance will undoubtedly be improved with this extra power, as well as the custom carbon fiber styling package including a front lip spoiler, side diffusers, rear diffusers, a rear trunk spoiler, eye lines, and a Seibon carbon fiber hood.[...]
