

Five Axis Targets Lexus CT 200h for SEMA

27/10/2011 12:49 by admin

The second SEMA-bond Lexus we really must bring to your attention is a CT 200h, the world's first premium hybrid hatch, that has received a thorough cosmetic enhancement from the guys at Give Axis.

The customization process for the exterior starts with a set of double-spoked 19-inch forged alloy wheels paired with 235/40ZR19 front and rear Yokohama tires. These give the car the attitude it doesn't deserve but desperately needs. Behind those wheels sits a Big Brake kit with cross-drilled rotor... [...]
