

Dodge Charger Hurst Edition

27/10/2011 18:50 by admin

Hurst, Street Scene Equipment, Dodge, and SEMA have teamed up to build a custom Dodge Charger that will be auctioned on eBay with all proceeds going to SEMA Memorial Scholarship Fund. The auction ends on October 28, 2011, just in time for the winner to take advantage of the additional SEMA ticket prize. This particular Dodge Charger will actually be the only one Hurst will customize this year. The Dodge Charger Hurst Edition will be equipped with Hurst wheels and tires, an Eibach suspension setup, a Flowmaster exhaust, and Hurst badges for the exterior. The badges will also find their way inside of the car, along with Katzkin leather interior with red and black Hurst logos in the headrests, a Hurst shifter, Hurst floor mats from Star West, and a Grant steering wheel. The list of equipment will include an 8.4" Uconnect Touch infotainment system and a navigation/Rear back up camera.[...]
