

Chevrolet Performance LS7 and LS9 V8 Crate Engines: Build Your Own

01/11/2011 13:51 by admin

Chevrolet Performance is opening its gates for customers who literally want to get their hands on one of its engines. In other words, you can build your own LS7 or LS9 powerplant.

However, since we're talking about outputs of 505 and 640 hp, respectively, you wouldn't want to get anything wrong, would you? Well, Chevy also has the answer for that, as the company allows sutomers of LS7 and LS9 crate engine kits to come to its Build Center in Wixom, Michigan, where they are assisted by GM engin...[...]
