We're ready and willing to see the next M3 Coupe, that might actually be called the M4, since the 3-Series modes with two doors will likely become 4-Series. But until that happens, the aftermarket world is having its way with the current generation, which we've come to know and love for some years now.

Vorsteiner has given us a fresh way to look at the car, as they've introduced a customization program for the E92 that has resulted in one of the most radical creatures out there. The component... [...]
