

## RSL, Project Kahn's New Rim

14/01/2009 09:17 by *Tuning - AutoEvolution*

[Project Kahn](#) has thrown in the world of customization a new prize gem called the Kahn RSL 9X21 matte black (front) and 10.5X21 (rear) rims. These come with a red stripe that give them a sporty but refined look perfectly suitable for the Mercedes-Benz S Class.

Project Kahn will also provide a full bespoke leather interior for the Mercedes S Class, following an agreement with German tuning masters Lorinser who will also provide body styling parts.

We are positive abo...
