

Japanese Tuning Kit for Lancer Evo X

14/01/2009 09:17 by *Tuning - AutoEvolution*

The already fancy-looking Lancer Evo X has just received a new tuning kit, this time coming straight from Japan from the Ings tuning company. At first sight, the whole tuning kit consists of a front bumper and a Z-Power Wing but it actually brings more parts improving the appearance of the car. The tuner installed Ings Sports wheels with Bridgestone tires and Endless Suspension plus an enhanced braking system said to bring a bit more braking force to the new Evo....
