

## Dartz BMW X6 Matte Black Wrapping Explained [Video]

07/11/2011 17:54 by admin

When people see a custom vehicle wrapped in a second skin, they tend to take things for granted and thus never realize the level of attention to details needed to make a new coat for an automotive creation.

In an effort to solve, these, the car skin specialists from Dartz have released a video in which they show such a transformation process for a BMW X6.

The SAV has received a full black appearance, being wrapped in black sattin-matt vinyl and carbon embossed 3D foil. The video allows you... [...]
