

B&B Audi R8 V10 Delivers 610 HP

10/11/2011 17:59 by admin

The Audi R8 just keeps receiving more and more aftermarket packages and we are here now to give you a new one: German aftermarket developer B&B Automobiletechnik, which likes to play with VW Group vehicles, has developed a tech package that gives the R8 V10 even more muscle.

B&B Automobiletechnik's Stage 3 performance kit (EUR14,950) includes a new exhaust system, a modified induction system, a carbon air filter, as well as a remapped ECU. Thus, the engine has been upgraded from 525 hp and 53... [...]
