

Mercedes CL 800 Coupe by Brabus

11/11/2011 03:03 by admin

Brabus has chosen the 2011 Dubai Motor Show to set the stage for the world's fastest and most powerful luxury coupe. Together with some of the most amazing vehicles in the world, Brabus has revealed their Brabus 800 Coupe based off of the Mercedes CL600. This new package ensures the coupe pushes out 800 HP and a top speed of 217 mph while looking sporty and elegant. Starting off the transformation is the upsizing of the vehicle's V12 engine, from 5.5 L to 6.3L. Then, thanks to a high-end turbocharging system designed by Brabus engine specialists and a carbon-fiber ram-air intake integrated into the hood, the CL600 now pushes out a total of 800 HP and 1,047 lb-ft of torque. The sprint from 0 to 60 mph is now made in just 3.9 seconds, while top speed is electronically limited to 217 mph.[...]
