

1973 Porsche 911 Tuned by dp Motorsport [Photo Gallery]

15/11/2011 17:50 by admin

Tuning a Porsche 911 is almost a must, if you want people to know that you're a serious aftermarket developer. It doesn't matter if your starting point is the fresh 991 generation or if you way back to the 356 grandfather, you have to do a project based on the rear-engined coupe.

The latest company to demonstrate this is dp Motorsport, a German tuner that entered business in 1973 and is now giving us a heavily modified 911 from the same year.

At the back, we have a 3.6-liter flat six that ... [...]
