

DMC 3S Ferrari California: Silver Carbon Fiver, 606 HP

21/11/2011 18:18 by admin

The German Luxury Tuner DMC decided to take standard Ferrari California convertible and turned it into a Carbon Fiber PS Monster. The 3S that has been added to its name stands for Surfista Silver Star.

The added components for the body of the California start with a silver carbon fiber splitter, silver carbon fiber rear diffuser and other such cosmetic add-ons. It also sits on ADV1 wheels in 21 and 22 inch sizes front and back respectively.

But it's not all show and no go, since the 3S Cal... [...]
