We're back with a new piece of aftermarket news dedicated to concave wheels and this time we want to give you a teaser coming from Vossen Wheels.

The company is giving us a preview of an upcoming project, a Mercedes CLK 63 AMG Black Series riding on its Concave CV3 rims. We are treated with a black on black image which really makes us want to see more. So what if the car we are talking about is no longer fresh? Any AMG Black Series vehicle is cool and deserves our attention.

We're invitin... [...]
