

## Ferrari 599 Tuned by Anderson Germany

29/11/2011 13:00 by admin

We're here to give a piece of German tuning for an Italian car, as the Ferrari 599 GTB Fiorano has received a modification pack fro, Anderson Germany.

We'll start under the hood, where the 6.0-liter V12 unit has been upgraded from 620 to 674 hp, through the addition of a sports exhaust, which allows the driver to control the sound through a remote control and an ECU remap.

The vehicle now rides on a set of 9x21-inch rims that come in a black finish with red accents and are wrapped in 245/3... [...]
