

Volkswagen Multivan Business Available with GTI Engine

30/11/2011 19:15 by admin

Please excuse us for focusing on the fact that the new range-topping Multivan Business is not only available with the usual TDIs, but also with the 2.0-liter TSI turbocharged, direct-injected engine that can also be found on the Golf GTI.

We've had a really good (and practical) time when we tested the VW Multivan, so we could only imagine what this car would be like with 204 hp (the Euro spec GTI offers 210 hp). In fact, this is one of the most tuning-friendly engines on the market, with a m... [...]
