

Range Rover Evoque HFI-R Tuned by Marangoni [Photo Gallery]

02/12/2011 11:46 by admin

The Bologna Motor Show is coming up shortly, and we have one more top contender for the title of most interesting tuning project. It's the Range Rover Evoque HFI-R, which bears the name of Italian tire manufacturer Marangoni, and also a set of their latest red tires.

But this project isn't all about the looks, as it also features advanced technology. The HFI-R comes from the Hybrid Fuel Injection dual-fuel system that's been installed. Land Rover's new 2.0-liter gasoline engine we enjoyed in ... [...]
