

Range Rover Sport Redefined by Cordon Wheels

02/12/2011 13:50 by admin

The Range Rover Sport is a vehicle with an character that's entirely different from what it's name suggests, as we found out during our test drive. To be more precise, the SUV really isn't sporty on the road, but comes with excellent off-roading abilities, as it's chassis is based on that of the Land Rover Discovery.

However, tuners don't want to hear about this (mainly because most customers don't care about it) and keep coming up with dynamic aftermarket bits for the vehicle. The latest exa...[...]
