

## New BMW 5-Series Body Kit from Prior Design

02/12/2011 13:50 by admin

Prior Design has released a full set of images of their brand new body kit for the F10 generation of BMW 5-Series, and as you can see, it's pretty radical, but in a good way. It's sort of like a mix between the M5 and those low-riders people like to turn their Bimmers into.

The kit packs plenty of sporty attitude, which is something surprising for such a big car, and definitely hard to pull off. The package comprises of a front spoiler lip, some LEDs in the intakes, a set of side skirts, a h... [...]
