

Nissan Juke-R Video No10: Time for a Shakedown and Testing

07/12/2011 23:18 by admin

Nissan's quest for Youtube views continues with the 10th installment of its web-based video series that follows the development of the most awesome and powerful Juke made to date, the GT-R-powered Juke R project car. Having done showing us the styling aspects and the building process of the Juke-R, the Japanese firm is now focusing on the fine-tuning and the testing of the 485-horsepower crossover on the track.[...]
