

Volkswagen Golf VI GTI with XBM Exhaust Screams [Video]

08/12/2011 15:30 by admin

The tuning world has complex ways, some of which are pretty difficult to explain to civilians. Let's take the creation from the adjacent video, for example. We are talking about a VW Golf VI GTI that has received its fair share of aftermarket goodies, with one of them being more special than others: and XBM exhaust.

As we were saying, this is not a mainstream product: while it might seem just another tuning bit, it is actually a mix between extra hp and top sensations, changing the feeling off... [...]
