So, you've decided to gift your car with a set of aftermarket rims, but this also means you have to choose a certain model. This might seem like a simple task at first, but how can you be sure they look good on your ride?

German tuner Lorinser comes to give you a virtual helping hand by introducing its wheel configurator. This is it, you will no longer have to ask a friend to photoshop-tune your ride in order to choose the best rims.

You can select the wheel model, the size and you also ha...[...]
